

OVERVIEW

The Certificate III in Non-Emergency Patient Transport program provides a sound base of knowledge and skills, is nationally recognised, designed and delivered by professionals with extensive industry knowledge.

We have the experience and passion to ensure that you graduate our programs capable of providing best practice health care, exceeding current industry standards, because not only do we train paramedics, we are paramedics and experienced educators too.

As one of the fastest growing industries in Australia, working in the health sector as a Patient Transport Officer may be the ideal career choice for you.

PATHWAYS

Wilson Medic One is dedicated to assisting students in achieving their study and career goals.

CAREER PATHWAYS

This qualification reflects employees providing non-emergency transport and care for patients with illness or disabilities.

- Ambulance transport officer
- Patient transport attendant
- Patient transport officer

STUDY PATHWAYS

After successful completion of the program, students will be awarded a Nationally Recognised Qualification for HLT31115 Certificate III in Non-Emergency Patient Transport.

The Units of Competency achieved in this qualification may provide credit towards a range of other qualifications at Certificate III and above, with many students continuing with their pre-hospital care knowledge and training and moving into more advanced areas of study as a natural progression.
